SUMMARY

Portfolio to get more projects: <https://shorturl.at/QxnAf>

Practical Engineer with hands-on experience in process design, collaborating with organizations to optimize workflows and deliver innovative, results-driven solutions aligned with business goals.

PROFESSIONAL EXPERIENCE (INTERNSHIP)

Full Stack Developer, MetaCraft Lab

June - July 2024

- Built a **Dynamic Polling App** with Svelte, featuring real-time vote updates, reactive UI, and responsive design.
- **Implemented state management and routing**, creating a smooth single-page experience and modular codebase.

Junior Developer, Paarvedan Foundation, Mumbai.

Jan - March 2025

- **Maintained and enhanced ERP** and community websites, improving UI and performance.
- **Added new features and resolved bugs** for smoother user experience.
- **Worked closely with teams to align updates** with user needs and goals.
